Part Number:
80611166101

High Gel Re-enterable Encapsulant 8882 is a two-part non-urethane encapsulating compound. The encapsulant aggressively adheres to filled cable and is compatible with common plastics used in telephone splice connectors. The encapsulant permits easy cable splice re-entry for future changes and maintenance. The 8882 encapsulant is one of a system of products available.

High Gel Re-enterable Encapsulant Volume 5208 ml
